## About CLEES

The Centre for Local Economic Strategies (CLEES) is the leading membership organisation in the UK dedicated to economic development, regeneration and local governance. Founded in 1986, CLEES undertakes a range of activities including independent research, events and training, publications and consultancy. CLEES also manages the monthly New Start digital magazine, through its new CLEES online service, which provides comprehensive analysis and commentary on current policy and good practice. In all of CLEES' work the challenge of delivering local economic development alongside progressive environmental and social benefits is a common theme.
